POLARIS®

ENGINEERED PARTS
ACCESSORIES & APPAREL

SEE  LIMITLESS
POTENTIAL

DESIGNED. TESTED. OPTIMIZED. VALIDATED.

The gear you rely on is only as good as the thinking behind it. That's how every Polaris Engineered™ piece of riding gear, part or accessory becomes a natural extension of your snowmobiling experience. We meticulously design, test, optimize and validate everything we create until it's right for you. From modern style and fit and finish, to seamless integration and extreme functionality. Because a difference you can feel starts with a different kind of thinking.

ALL-NEW RIDING GEAR

ENGINEERED FROM THE BOOT UP

GOING THE DISTANCE STARTS HERE

For years, dedicated riders have seen Polaris® as the hallmark of backcountry, trail and racing innovation. With the same commitment to excellence, we're proud to release our newly perfected apparel line for 2017. With modern technology and unrivaled performance at the core of design, our riding gear gives you the confidence to stay out longer and go where you've never gone before.

"I love my Switchback® Assault®, and my new Polaris® riding gear. It's super comfortable, flexible, and fits right. You won't catch me wearing anything else."

— NICK B. | PASSIONATE POLARIS® RIDER

TO BE THE BEST, YOU JOIN FORCES WITH THE BEST.

The 2017 Polaris Engineered™ Riding Gear puts in overtime to keep the elements at bay, and enhancements to fit and material bring you deeper into the riding experience. From the top of the summit to wind-swept trails – every piece of apparel has been designed with your environment in mind. We test everything at our Apparel Center of Excellence in Rigby, Idaho so you can ride with confidence knowing it's been put through its paces and is worthy of anything you can throw at it.

POLARIS®

ENGINEERED APPAREL

STAY DRIER

Trusted around the globe by millions, Gore-Tex® fabric is guaranteed to keep you dry by deflecting moisture and wind without compromising breathability.

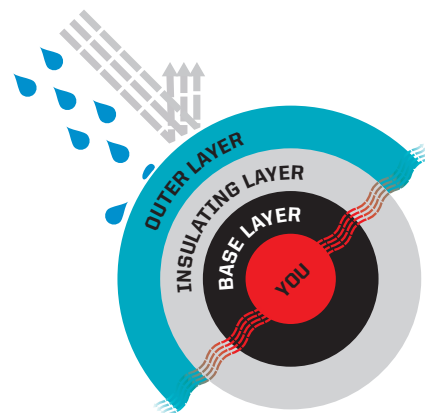

RIDE SAFER

Proven in every weather condition, patented Scotchlite® Reflective Material radiantly bounces light back at its source so you'll always be seen.

3M Scotchlite™
Reflective Material

THE ART OF LAYERING

Properly preparing for the day's riding conditions is key to staying warm, staying dry and being as comfortable as possible. It comes down to moisture management, insulating warmth, and protection from the elements.

LOOK FOR THE FOLLOWING
INDICATORS THROUGHOUT THIS
BOOK TO IDENTIFY THE BEST
LAYERING GEAR.

BASE LAYER

Helps control your body temperature by wicking away moisture. Polyester works best; once cotton gets wet it stays wet.

Pgs. 26, 32

INSULATING LAYER

Works to pull moisture away while keeping body heat in. Polyester and fleece are ideal.

Pgs. 28, 31-33

OUTER LAYER

Regulates your temperature by venting moisture and blocking out wind, snow and water.

Pgs. 6-15

BE WARMER

Thinsulate™ Insulation is the gold standard in high-tech microfiber warmth, working to deflect and diffuse cold air before it reaches your body.

HELMET FLIPS OPEN WITHOUT HAVING TO REMOVE THE HELMET

3 STEPS TO A PERFECT FIT

INNER LINING

Make sure the inner lining fits snugly around your head without causing pain.

MOVEMENT

Move the helmet side to side. Your scalp should move with it.

CHINSTRAP

Check with your finger, if proper tightness, finger shouldn't fit between chin and strap.

- » Polarized Yellow | 2865134
- » Polarized Smoke | 2865135

THE IMPORTANCE OF OWNING A LENS FOR EVERY LIGHT CONDITION.

BRIGHT LIGHT

SMOKE + BLUE

- Cut down brightness without distorting color
- Reduce eyestrain

FLAT LIGHT

YELLOW + GOLD

- Enhances flat-light terrain definition
- Delivers superior depth perception

LOW LIGHT

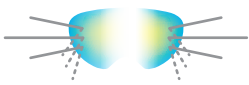

ROSE + CLEAR

- Delivers superior low-light visibility
- Increases contrast in cloudy conditions

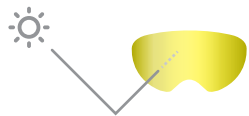

COATINGS

MIRRORED COATING

- Reduces glare by reflecting light
- Maintains visibility of LCD readouts
- Paired with lighter tints to offset darkening

POLARIZED LENSES

- Substantially reduces glare and blinding
- Blocks horizontal light waves
- Decreases eyestrain

“When you ride in Alaska, you need great gloves. I bring three pair every trip. A pair for the ride in and out, a thinner pair for when we arrive, and finally a medium pair for back up. It gets cold riding at -15°F.”

– TAIT JOHNSON | PASSIONATE POLARIS® RIDER

• SHELL: Protective UHMW panels cover shoulders; front/rear mesh panels promote cooling airflow
• FIT: Adjustable straps for perfect fit
• SAFETY: Optional quick-attach shoulder pads for upper arm coverage
• ADDITIONAL FEATURES: Large arm openings for unrestricted movement; for snowmobiling or off-roading use
» Black | S-3XL | 2862189

TEKVEST® SUPERSPORT
• SHELL: Protective UHMW panels cover shoulders
• FIT: Adjustable belt across lower back ensures proper fit
• SAFETY: Optional quick-attach shoulder pads for upper arm coverage
• ADDITIONAL FEATURES: Zip-off fleece collar diffuses body heat to reduce fogging; large arm openings for unrestricted movement; drop-tail design for extended coverage; 2-stage pockets; snowmobiling or off-roading use
» Black | S-3XL | 2862190

YOUTH TEKVEST®
• Comfortable, size-adjustable Youth TekVest® provides young riders (70-100 lbs.) with valuable upper body protection.
• SHELL: Strong, protective UHMW panels cover shoulders
• FIT: Adjustable side straps and arm straps
• SAFETY: Shoulder pads are included for upper arm protection
» Youth | 2862191

TEKVEST® SHOULDER PADS
• Quick-attach shoulder pads allow for upper arm coverage
» S-3XL | 2862192

ENGINEERED BY POLARIS®
PERFECTED BY YOU

RIDE-DEFINING ACCESSORIES

Polaris Engineered Accessories™ are engineered alongside your sled, so they're ready to dominate any terrain. From bags and racks to bumpers and windshields, we produce a complete line of perfect fitting accessories. We draw from pro-rider insights and combine it with decades of field-tested experience, to offer products that are superior in design and performance. And, with the industry-exclusive Polaris® Lock & Ride®, accessories are easy-on, easy-off. Just a quick install and you're ready to conquer the terrain less traveled.

MOUNTAIN GEAR
STORAGE P. 52

"I've been riding backcountry for 20 years. Always carry proper safety gear, be aware of your terrain and any avalanche warning zones in your area. Make sure to go one at a time and always have an escape route preplanned in case of a slide."

—DAN ADAMS | BACKCOUNTRY EXPERT

PRO-RIDE®

"Being able to carry riding necessities in an organized purpose-built bag is key. Lock & Ride® technology allows you to take any Polaris Engineered® signature Burandt storage bag on and off in a matter of seconds."

— CHRIS BURANDT | TERRAIN DOMINATOR

SPACIOUS STORAGE. UNRIVALED INTEGRATION.

Plan for anything, so you can take on everything. With the Premium Lock & Ride® Backcountry Tunnel Bag, you get 1950 cubic inches of storage space to bring all-day riding essentials and more. The Backcountry gives you a water resistant design with an airflow channel between the mount and the bag to effectively reduce heat from the tunnel.

★ TOP SELLER PREMIUM LOCK & RIDE® BACKCOUNTRY TUNNEL BAG

- Lock & Ride® system allows for easier installation & improved locking strength
- Reinforced high density EVA compression mold provides high impact resistance and extreme tunnel protection
- Main storage compartment is 1950 cubic inches and allows for a customized configuration with Velcro® adjustable dividers to keep gear in place during the ride
- Lid features a snow gasket preventing moisture from entering inside the storage compartment keeping valuables dry
- Bottom is designed with air flow channel to reduce heat between the tunnel and bag

WRAPS / PANELS

WRAP YOUR SLED IN STYLE

Creating and customizing wraps for your sled is now easier than ever. It all starts with our innovative new Polaris FX Direct pages and SledWrapR application that allows you to design your own graphics and buy them in minutes. Simply find your chassis, choose your wrap pattern, select your base color, and customize your final design.

POLARIS.COM/AFXWRAPS

"ArcticFX wraps make it easy to customize your sled and make it your own using SledWrapR. It's also a quick and affordable way to update your sled every year to keep them looking fresh."

– JORDAN YANKEE | ARCTICFX GRAPHICS FOUNDER & OWNER

Everything you need – front and center. With the Polaris® Interactive Digital Display technology, you can easily plan your trips, be informed of vehicle needs, and stay posted on your calls and messages. So safely keep your phone in your pocket, always make it back to the lodge and make fumbling with maps a thing of the past.

POLARIS® INTERACTIVE DIGITAL DISPLAY (PID)

NEW FEATURES

- Brighter, easier to read screen
- GPS Course up or North up with rotating background map capabilities allow for more user preference flexibility
- GPS Go-to function with distance allows for countdown mileage to a selected waypoint to be shown on Map screen
- Exporting capabilities for created tracks and waypoints from the display to USB Drive
- TPS, RPM, Ground speed playback for up to 1:30 seconds to easily change clutching specifications for riding elevation changes

STANDARD FEATURES

- 4.3" full-color LCD readout for premium clarity
- Real-time gauge with speed, RPM and average MPG
- Incoming calls and texts, cell battery life and signal
- Toggle through display modes with left hand controls

Requires Ultimate Defrost Bag (2878090)

PRO-RIDE®

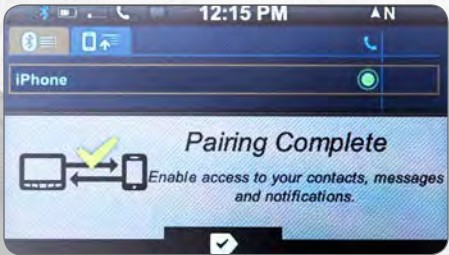

ULTIMATE DEFROST BAG

» 2879090

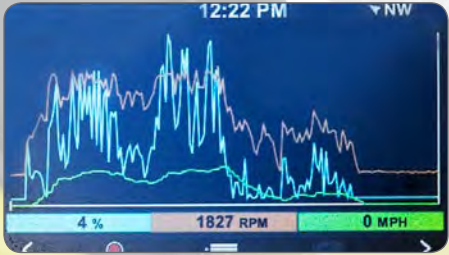

PRO-RIDE®

GPS connectivity offers exact location information including elevation, latitude/longitude and compass bearings

Bluetooth® functionality allows you to see your missed calls and text messages on the display

TPS, RPM and ground speed playback for up to 1:30 seconds to easily change clutching specifications

DON'T HAVE AN ELECTRIC START?

For a better experience with no electric start, install Battery Kit (2882200)

Advantages with this kit include:

- Maintain GPS lock when you start your sled back up. (without battery kit satellite will need to relocate which can take up to 30 seconds while moving.)
- Display will not shut down and reboot every time your sled is shut off.
- Display has ability to run while sled is turned off which allows you to use the screen while stopped.

POLARIS® LINK POWERED BY RIDERX™

Further integrate yourself into your riding experience with Polaris® Link, powered by RiderX™. The wireless link easily plugs into your snowmobile to record diagnostics and other valuable information. The data is then transferred wirelessly via Bluetooth® to your cellular device, where you can then review the data using the free RiderX™ mobile application. With Polaris® Link you can view real-time speed, rpm, fuel rate, mpg, and much more.

- Analyze speed, RPM and average miles-per-gallon metrics in real-time
- View snowmobile statistics including fuel rate, battery voltage engine hours and more
- Review snowmobile diagnostics such as possible error codes or preferred dealer communications and service reminders

*Full functionality requires compatible Bluetooth® smartphones

RIDE HANDLING AND CONTROL

Ride handling and control starts with the parts that come in direct contact with the snow. Skis, carbides, studs and more work as an integrated system you can optimize, tweak and enhance to ensure you have total control of your sled, in any condition. Whether you’re refreshing anw older model or upgrading a brand new sled, remember that each part plays a role in achieving the perfect balance of handling and control for whatever terrain you’re dominating.

OPTIMIZING TRACTION AND CONTROL

	SKIS	CARBIDES	TRACK/STUDS
MOUNTAIN Riders need flotation and the ability to carve in deep snow.	Add Gripper Skis for a deeper keel, greater flotation and positive steering in deep, loose snow.	For added on trail capability use 8" length carbides.	Choose a track based on your sleds rail length. Run a deeper lug and more aggressive track pattern the softer and deeper the snow.
CROSSOVER Riders want the perfect balance between on-trail performance and off-trail flotation.	Choose Pro-Steer Skis if you prefer more trail riding or Gripper Skis if you use trails to get to your next jump off point.	To carve the trail corners trail while not being hindered in deep snow use 8" length carbides.	For perfect balance on or off the trail choose a track with a lug depth between 1.5" and 2". If you ride off-trail more choose the lug depth that works for the depth of snow.
TRAIL Agressive trail riders that frequently encounter icy conditions will benefit from studded tracks, and skis with more-aggressive carbide wear bars.	For true trail performance add the Polaris Engineered™ Pro-Steer Ski—specially designed with a low profile keel to minimize darting.	For optimized tracion control, balance the length your carbides against the quantity of studs and track length of your sled.	Choose a track based on your sleds rail length and add the number of studs based on your sled model and whether you’re a trail, performance or intermidate rider.

GRIPPER SKI ■ ■ ■

- Deep, 1¼" keel provides positive steering in deep loose mountain snow
- Wide, 6¾" ski delivers increased flotation
- Top traction surface for boot stepping on ski

CARBIDE WEAR STRIPS

CHOOSE YOUR STYLE:

60° CARBIDE

- Ideally for more aggressive riders on hard pack snow or ice.
- Penetrates deeper but dulls faster as more weight is focused on the carbide edge.

90° CARBIDE

- Perfect for riders who desire increased control but value the longevity of a slowly dulling carbide to one that etches more aggressively.

CHOOSE YOUR LENGTH:

3" - 4" CARBIDE

The most common length of carbide, perfect for sleds with a 121" track with 96 studs or less or sleds with 1" lugs taking corners at moderate speeds.

6" CARBIDE

Ideal for high performing sleds in the 136" track range with up to 1 1/4" lugs or a shorter track sleds with more than 96 studs.

8" CARBIDE

Best for ultimate performance sleds with a 144" track or longer with paddles and/or the maximum amount of studs.

TRAIL

COBRA

- Cupped lugs for superior acceleration and braking in loose soft snow conditions
- Flexible lug design for superior off-trail performance
- Softer, thinner lugs generate less noise for improved rider comfort

HACKSAW

- 1" lug height for low rolling resistance that improves fuel economy
- Crescent lug features recessed tips and cutting edges for forward and lateral bite on hard-pack
- Hard-wearing rigid lugs for mile after mile of dependable use
- Narrow lug base to reduce rolling resistance and maximize top speed

ICE ATTAK

- Factory pre-studded with aggressive 31-point stud pattern
- HackSaw-based lug design for good top speed and handling on hard-pack snow
- 1.063" lug height for average trail use and good speed
- 1.0375" lug height for mixed on/off-trail use

ICE ATTAK XT

- Factory pre-studded for improved traction and control
- Lug design delivers better traction than the ICE RipperXT
- 1.22" lug height provides better handling and stability
- Optimized rubber compound for superior traction on groomed trails

RIPSAW

- Rigid lugs provide superior handling, acceleration, and braking on groomed trails
- Narrow lug base to reduce rolling resistance and maximum top speed
- Angled profiles for aggressive forward and lateral bite

RIPSAW II / RIPSAW II 1.5

- Tapered outside lug edges for less side bite when cornering
- Sharp angled lugs for excellent bite on hard-pack snow
- Cupped center and full outer lugs for traction on loose, less compacted snow
- Lug design generates less noise for improved rider comfort on hard-packed groomed trails; Available in 1.25" and 1.5"

CROSSOVER

Back Country Back Country X

BACKCOUNTRY / BACKCOUNTRY X

- Arched lug design with staggered snocross-inspired pattern for excellent soft snow traction
- 2.52" drive pitch for BackCountry, 2.86" and 3" drive pitch for BackCountry X
- New for 2015, BackCountry X 2.86" drive pitch models will feature tapered lug on outside edges for improved durability
- Now available in 3" drive pitch for BackCountry X

BACKCOUNTRY X2

- Arched lug design with staggered snocross-inspired pattern for excellent soft snow traction
- Rigid lug support columns and optimized rubber compound to deliver great on/off-trail performance
- 2.86" drive pitch

COBRA 1.6

- Cupped lugs for superior acceleration and braking in loose soft snow conditions
- Flexible lug design for superior off-trail performance
- Designed for ICE Technology, select lugs are more rigid for traction on hard-packed snow performance

ICE COBRA 1.6

- Factory pre-studded ICE Technology with the optimal lug height for on/off-trail riding
- Cupped lugs for superior acceleration and braking in loose, soft snow conditions
- Center Hole for use with third driver

*2 ply tracks

DEEP SNOW

SERIES 7

- Polaris® exclusive
- Ideal track to provide lift in the deepest, softest snow conditions
- Features a new lightweight single-ply design optimized for weight and powder snow performance

SERIES 6

- Outstanding traction and control in deep snow
- Lugs provide tremendous flotation and great performance
- 2.6" lugs provide outstanding traction in all deep snow conditions
- Design provides outstanding flotation and control

SERIES 5.1

- Industry-leading deep powder track; for 8T Drive sprockets, 2.86" pitch
- Optimized lug pattern producing 19% more forward lug contact compared to our Series 5.0 track
- Soft and flexible tips for superior performance in deep snow

PEAK 2.25

- Delivering unrivaled acceleration on hardpack snow with designed lift and flotation for deep powder
- A great all around track for those who need the acceleration and traction of a stiffer lug with the flotation and lift

SERIES 4

- The standard in 2" deep snow tracks; for 9T Drive sprockets, 2.52" pitch
- Equal parts versatility and durability
- Stiff lug base for long wear and hard-pack performance
- Soft and flexible tips for superior performance in deep snow

CHALLENGER X3

- Single-ply construction, 3" drive pitch and advanced molding technology make it the lightest in its category
- Lug geometry and support columns allow lug cup and flex action for unmatched flotation
- 174" and 156" models now available

CHALLENGER 3.2

- Saw tooth lug design for improved traction & control on packed snow
- 3" drive pitch and advanced molding technology make it the lightest in its category
- Lug geometry and support columns allow lug to cup and flex for unmatched flotation

PEAK 2.5

- Angular lugs bite big and funnel snow under snowmobile for outstanding flotation
- Available with soft lugs for powder snow and hard lugs for heavy/wet snow
- Outer lug bars deliver better lateral control for improved handling

“A new track is an effective and affordable way to breathe new life back into your sled, boosting performance to revive your ride and make the most out of winter.”

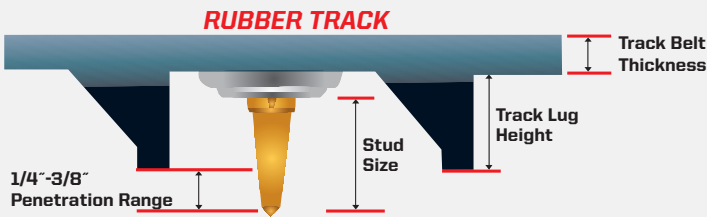

—JASON DAVIS | CASMO SNOW DIRECTOR

STUDS

RIP WITH AN IRON GRIP

Track studs allow you to dominate terrain as far and as fast as you can see. The right stud improves acceleration, braking, steering and control especially on hard-packed snow and ice. The more aggressive your riding style, the more traction your sled needs to perform.

CHOOSING THE RIGHT STUD

1. Determine your riding style and terrain.
2. Find sled model info and number of studs required.
3. Determine length of turning carbides to balance traction and steering.
4. Make sure the studs won't interfere with your tunnel or cooling system.

POLARIS.COM

THE IMPORTANCE OF PROTECTING YOUR SLED

Shield your sled from harsh elements and harmful UV rays using a premium polyester cover, ideal for overnight protection and trailering, or a canvas cover for towing and off-season storage.

NEW PREMIUM POLYESTER COVERS

- Polyester construction provides extremely durable protection from the elements; especially trailering
- Fits full range of windshield heights
- Includes integrated straps and hardware
- Coated to repel water and UV degradation

NEW CANVAS COVERS

- 10 oz. canvas construction provides durable protection from the elements
- Fits full range of windshield heights
- Coated to repel water and UV degradation
- Form-fitting elastic cinch design

NEW UNDERCOVER

- Made to go under Polaris snow covers to provide an additional level of protection
- Fabric provides softness to help minimize cosmetic damage caused by chaffing
- Easy to install / remove
- Works well as a dust cover when machine is stored inside
- The undercover is separate from the cover which allows it to be kept clean by machine washing. We recommend using a washing machine bag to contain the elastic and hooks, air dry.

- » 2859047-01 | Red
- » 2859047-02 | Black

NEW LED POCKET FLASHLIGHT

- Bright 1 watt LED bulb generates 90 Lumens of light
- Capable of lighting up to 200-feet
- Includes two AAA Duracell® batteries
- » 2830436

NEW 12" HI-TORQUE RATCHETING DRIVER

- Stainless steel shaft with fixed position tip
- Forward and reverse ratcheting action
- Rated up to 250 inch-pounds (35 kg/m) of torque
- Bit storage inside handle
- » 2830434

NEW 33" TELESCOPIC MAGNET

- Strong magnetic pick-up end
- Extends from 6.5" to 33"
- Up to 5-pounds of holding strength
- Features shielded side for targeted pickup
- Easy to grip handle
- » 2830435

NEW MAGNETIC PARTS TRAY

- Keeps nuts, bolts, fasteners and small tools within easy reach
- Soft, rubberized covering over magnets prevents damage to finished surfaces
- Corrosion resistant stainless steel tray
- 5.375" W x 9.365" L x 1.25" D
- » 2830432

GENERATORS

POLARIS POWER® INVERTER GENERATORS

Polaris Power® digital inverter generators are built for your outdoor lifestyle and are tested to the same rigorous standards as every Polaris® product.

- » P136D6ANA | 1000 Watt |
- » P136D6BNA | 2000 Watt |
- » P136D6CNA | 3000 Watt |

P1000i P2000i P3000iE

POLARIS POWER® PARALLEL KIT

- Increase total power output by connecting two Polaris® inverter generators together
- Any combination of two Polaris® parallel-ready inverter generators can be connected (P2000i and a P1000i, two P2000i models or two P1000i models)
- CETL Certified
- 3200 Watt Maximum Output, 26.7A, 60 Hz
- 30A twist lock receptacle, 120v
- » 3410281

POLARIS POWER® TIE-DOWN LEADS

- Secure your Polaris Power® Generator by inserting the Lock & Ride® Tie Down Leads into the handle and running a strap across to tie down the generator
- Secures Lock & Ride® accepting gear
- Safely provides a point for 1" wide tie down strap
- » 2880959

POLARIS POWER® GENERATOR OIL

- Polaris Engineering™ tested and approved
- Specifically formulated for Polaris Power® Inverter Generators
- Corrosion inhibitors protect against rust and oxidation during long-term storage
- Easy starting in extreme cold environments
- » 2879383 | 1 qt. | 12 per case

POLARIS POWER® COLD WEATHER KIT

- Ensure smooth running of your Polaris® Generator in sub-zero temperatures
- Prevents ice blockage in the crankcase breather tube, which may lead to operational issues including oil leakage
- Installation required, no need to disconnect for warm weather operation
- Exclusively designed for use with Polaris® P1000i & P2000i inverter generators
- » 2881433

POLARIS POWER® INVERTER GENERATOR COVER

- Custom fitting storage covers to keep your generator safe from the elements when not in use
- Built in pocket for owner's manual & DC charge cable
- Strong durable material, resistant to mold, mildew, tears & abrasions
- » 2686441 | 1000 Watt
- » 2686442 | 2000 Watt
- » 2686443 | 3000 Watt

BATTERY CARE

BATTERYMINDER® 1510 - 1.5 AMP

- Maintains up to 4 batteries
- Recovers deeply discharged batteries
- Automatic Full-Time high frequency (not high voltage) pulse type desulfation
- Extends battery life up to four times when compared to new batteries not being properly charged-maintained over their lifetime.
- Manufacturer's One-Year 100% Money Back Guarantee and 10-year "No Hassle" Warranty
- Includes: 12' power cord, BC-AA: Insulated Battery Clip Cord Set , Optional Permanent Mounting Tab, Ring Terminal Assembly with Quick Connector
- » 2830404

BATTERYMINDER® 2012 AGM - 2 AMP

- Designed for High-Performance Specialty AGM Sealed batteries
- Microprocessor controlled 12-volt, 2-amp charger/maintainer/desulfator
- Temperature Sensor-Compensator (prevents potential over/under charging from 32°F - 130°F)
- Recovers deeply discharged batteries
- Maintains multiple batteries
- Manufacturer's One-Year 100% Money Back Guarantee and 5-year "No Hassle" Warranty
- Includes: 6' AC cord and 6' DC cord with quick connector
- » 2830438

BATTERYMINDER® RING TERMINALS

- Features 24" long 18-gauge wire
- Plug has standard 5/16" negative and 3/8" positive terminals
- Replaceable 15 amp in-line fuse for circuit protection
- Uses SAE quick connector and cap
- » 2830437

BATTERYMINDER® SPLITTER

- A simple, safe and affordable way to connect 2 batteries simultaneously for easy battery maintenance, includes a set of ring terminals
- » 2830409

BATTERYMINDER® 12' CABLE

- Made with heavy-duty 16 ga. black zip cord featuring automotive SAE bullet connectors
- » 2830410

BATTERYMINDER® EZ CONNECT

- Allows for quick and easy connecting and disconnecting of your BatteryMINDER®, includes a set of ring terminals
- » 2830411

BELTS / PARTS / VEHICLE CARE

POLARIS® SNOWMOBILE DRIVE BELTS

POLARIS ENGINEERED™ BELTS DELIVER SUPERIOR PERFORMANCE FOR YOUR RIDE, WHETHER IT'S BRAND-NEW OR EXPERIENCED ON THE TRAILS. OUR ENGINEERS ARE EXPERTS ON MAKING POLARIS® MACHINES OUTPERFORM THE REST.

STANDARD = GOOD
• Good trail belt for lower horsepower engines • Best suited for low-speed operation • Single Cog
KEVLAR® = BETTER
• CNC cut edges belt • Short break-in period • Dual Cog
PBO = BEST
• Extreme-duty belt; longest service life • CNC cut edges on each belt • Longer break-in period • Dual Cog

POLARIS ENGINEERED™

"We produce the most effective and efficient drive system for Polaris® snowmobiles by holding our belts to extremely high standards that no aftermarket company can match."

*Belt dimensions are given in nominal dimensions. There is a +/- variance for all critical dimensions. Clutch setup must be inspected when a new belt is installed and should be adjusted if necessary. The drive belt is an important component in the CVT system. In order to achieve maximum efficiency from the converter, drive belt deflection (tension), clutch offset and alignment must be adjusted properly. See your Service Manual for further details on drive belt measurement inspection.

- » 4011496
- » 4013045
- » 4011224

PRE-TREAT

MUD SHIELD™ PRE TREATMENT

- Inhibits the adhesion of snow, dirt, and mud to your machine
- Makes cleaning your vehicle easier and faster
- » 2830229 | 16 oz.

NEVER RUST SPRAY™

- Synthetic formula protects against rust and corrosion while lubricating metal surfaces
- High resistance to water wash out
- » 2830230 | 16 oz.

CLEAN

XP WASH™

- Removes the most intense and stubborn dirt and trail build up easily
- Foaming, highly concentrated wash
- Superior water beading
- » 2830225 | 32 oz.

XP SPRAY WASH™

- Effortless cleaning power - simply spray on, spray off and go
- A biodegradable, high-performance wash ideal for removing dirt, oils and carbon
- » 2830224 | 32 oz.

NEW HD CLEANER & DEGREASER

- Professional grade formula
- Dissolves and removes tough stains and soils
- High foaming for optimum contact and penetration
- Biodegradable
- » 2830418 | 1 gal.
- » 2830420 | 5 gal.

NEW GLASS CLEANER

- Foam formula clings to vertical surfaces
- Leaves an invisible, dirt resistant barrier for long lasting results
- Non-streak formula leaves glass surfaces crystal clear
- Cuts through grease, dirt, road-film and dried on bugs
- » 2830445 | 16 oz.

NEW VEHICLE & EQUIPMENT WASH

- Professional grade formula
- Powers through buildup such as dirt, trail grime, and grease
- Leaves a spot free rinse on all surfaces
- Concentrated formula makes up to 32 gallons
- Biodegradable
- » 2830417 | 1 gal.
- » 2830422 | 5 gal.

ALL PURPOSE CLEANER

- Foam formula clings to vertical surfaces
- Leaves an invisible, dirt resistant barrier for long lasting results
- Non-streak formula
- Cuts through grease, dirt, road-film
- » 2830227 | 16 oz.

NEW ALL PURPOSECLEANER PLUS

- Professional grade formula
- Removes built up stains from shop floors, work benches and other hard surfaces
- VOC-free, environmentally friendly and biodegradable
- » 2830414 | 1 gal.
- » 2830416 | 5 gal.

SHINE

POLARIS® POLISH

- Easy protection and shine - spray on, wipe off and go
- Ideal on painted and plastic surfaces
- Contains carnauba wax
- » 2830228 | 16 oz.

INSTANT SHINE & DETAILER

- Cleans, polishes and protects plastic and painted surfaces
- Spray and wipe formula
- » 2830226 | 16 oz.

THE ONLY HIGH-PERFORMANCE OIL ENGINEERED SPECIFICALLY FOR YOUR SLED.

From Track To Trail. Tested to perform under the most extreme conditions, Polaris Engineered™ VES Synthetic Oil is used by top Polaris® riders in grueling, long-distance races such as the Soo I-500 and Iron Dog where ultimate performance and protection are critical. From race engines, to high-performance engines such as the 800 Cleanfire, to hard-working, high-mile trail engines such as the 550 Fan, Polaris Engineered™ VES Synthetic Oil is the best option for Polaris® snowmobiles. Protect your investment, use Polaris Engineered™ Lubricants.

VES SYNTHETIC 2-CYCLE OIL

- Full Synthetic formula provides enhanced valve cleaning, low smoke, and excellent lubricity
- Designed for Variable Exhaust Systems and all other Polaris® 2-cycle engines

» 1 Quart | 6 per case | 2877882
» 2 Quart | 8 per case | 2877953
» 1 Gallon | 4 per case | 2877883
» 2.5 Gallon | 2 per case | 2877884
» 16-Gallon Drum | 2877885
» 55-Gallon Drum | 2877886
» 330-Gallon Tote | 2877892

VES RACE SYNTHETIC 2-CYCLE OIL

- High performance full synthetic oil provides enhanced valve cleaning, low smoke, and excellent lubricity
- Ultimate cold flow and start up protection down to -70F

» 1 Quart | 6 per case | 2878243
» 1 Gallon | 4 per case | 2878191
» 16-Gallon Drum | 2878244
» 55-Gallon Drum | 2878245
» 330-Gallon Tote | 2878534

NEW POLARIS® BLUE 2-CYCLE OIL

- Engineering approved for all Polaris® 2-cycle engines without VES (variable exhaust system)
- Extreme cold flow properties protect to -70F
- Additives for enhanced protection and detergency
- High lubricity for superior engine protection

» 1 Quart | 12 per case | 2882201
» 1 Gallon | 6 per case | 2882202
» 2.5 Gallon | 2 per case | 2882204
» 16-Gallon Drum | 2882203
» 55-Gallon Drum | 2882205
» 330-Gallon Tote | 2882206

PS-4 FULL SYNTHETIC OIL

- Full synthetic designed for Polaris® 4-stroke engines
- Excellent cold weather start-ability plus ultimate engine protection

» 1 Quart | 6 per case | 2876244
» 2 Quart | 8 per case | 2877490
» 1 Gallon | 4 per case | 2876245
» 16-Gallon Drum | 2876247
» 55-Gallon Drum | 2876246
» 330-Gallon Tote | 2878814

SYNTHETIC CHAINCASE LUBE

- Prevents rust, oxidation and corrosion of internal chaincase components
- Provides maximum protection
- Low sulfur additive resists thermal breakdown

» 1 Quart | 12 per case | 2873105
» 1 Gallon | 4 per case | 2873106
» 2.5 Gallon | 2 per case | 2872952

EXTENDED LIFE ANTI-FREEZE 50/50 FORMULATION

- Extended 5-year service interval
- Hard water compatible
- No scaling = better heat transfer

» 1 Quart | 12 per case | 2880514
» 1 Gallon | 6 per case | 2880513
» 55-Gallon Drum | 2880512

FOGGING OIL

- Outstanding moisture displacement and water resistance
- For all 2- and 4- cycle applications

» 12 oz. | 12 per case | 2870791

SHOCK ADJUSTING LUBE

- Allows for easy spring adjustment
- Silicone dry film lubricant
- Penetrates shock body threads, lubricates spanner nut and threads

» 11 oz. | 1 per case | 2878018

HYDRAULIC BRAKE FLUID

- Designed for use in Polaris® hydraulic brakes
- Superior high temperature characteristics

» 12 oz. | 12 per case | 2872189

GAS SHOCK OILS

- Premium formulas to match every shock

» Walker Evans™
5wt -1 Quart | 6 per case | 2874522
» Premium FOX®
1 Quart | 6 per case | 2870995
» Premium FOX®
2.5 Gallon | 2 per case | 2872279

GREASE GUN KIT

- Tough steel construction
- Front and top-pipe outlet mounts accept both 6" rigid pipe nozzle and 12" 12,000 PSI flex hose
- Comes with standard zerk fitting

» 4 per case | 2871312

ALL-SEASON GREASE

- High shear stability
- Superior adhesion
- Multi-purpose formulation for all Polaris® applications except U-joints

» 3 oz. 4-pack | 6 per case | 2871322
» 14 oz. | 10 per case | 2871423

FUEL TREATMENTS

CARBON CLEAN

- Advanced formula with 5:1 powersports treat ratio
- Removes carbon deposits from valves, piston rings, and combustion chamber

» 12 oz. | 12 per case | 2881413

ADVANCED FUEL TREATMENT

- Advanced formula with 5:1 powersports treat ratio
- Dual Antioxidant formula protects jets and fuel system from gum and varnish
- Stabilizes fuel for up to 2 years

» 12 oz. | 12 per case | 2881416
» 2.5 gal. | 2 per case | 2881417

SCENTED ADVANCED FUEL TREATMENT

- 1 oz pouch treats 5 gallons of fuel
- Strawberry and Mint formulas provide pleasant fragrance through the exhaust system

» 25 -1 oz. pouches | Strawberry | 2881419
» 25 -1 oz. pouches | Mint | 2881418
» 25 -1 oz. pouches | Unscented | 2881420
» 75 -1 oz. pouches | 25 each, Strawberry, Mint, Unscented | 2881421

VP RACING FUELS

- Developed with VP Race Fuels and tested by the Polaris® Factory Race Team to meet the demands of high-horsepower stock and modified racing engines
- Legal-stock fuel for most race sanctions; dilute to meet specific octane requirements

» 110 Octane | 5-Gallon Pail | 2880305
» 110 Octane | 54-Gallon Drum | 2880304
» 114+ Octane | 5-Gallon Pail | 2880307
» 114+ Octane | 54-Gallon Drum | 2880306
